

PRESIDENT AGAIN MAY ASK DELAY IN STEEL STRIKE

Executive Council of 24
Unions Orders Walk-
Out September 22.

WORKERS 95 PCT. ORGANIZED OFFICIALS OF UNION ASSERT

Judge Gary, Head of Steel
Corporation Says Only
10 Per Cent Will Quit

Washington, Sept. 11.—With a strike of organized steel workers called to take effect September 22, in disregard of President Wilson's request that the unions postpone action pending the forthcoming industrial conference speculation as to the next development in the situation centered today on the possibility of the President again taking a hand in the matter either to urge reconsideration of the strike order by union officials or to endeavor to secure a more "definite statement" from the union officials for the U. S. steel corporation.

The strike was called yesterday by the executive council of the 24 unions embraced in the steel industry after they had telegraphed President Wilson for a more "definite statement" on the possibility of arranging a conference with steel corporation officials and the President in reply had wired a request that the unions accept postponement of the strike until after the industrial conference.

As to the probable extent of the strike, union leaders refused to indulge in speculation, but they branded as ridiculous a declaration attributed to Judge Gary, head of the steel corporation, that not more than 10 per cent of the steel workers were organized. Officials claim that in some places the workers are 95 per cent organized and said organizers have been active for months practically all lines obtaining reports for the unions.

WILSON SETS UP TEN POINTS IN PEACE TREATY

On Board President Wilson's Special Train, Sept. 11.—President Wilson last night set up 10 peace points in connection with the peace treaty. He designated these as the fundamental principles on which he is asking its acceptance by the United States. The 10 points are:

- One—The destruction of autocratic power as an instrument of international control, admitting only self-governing nations to the league.
- Two—The substitution of public discussion and arbitration for war, using the boycott rather than arms.
- Three—The peace of the world under constant international oversight, in recognition of the principle that the peace of the world is the legitimate immediate interest of every state.
- Four—Disarmament.
- Five—The liberation of oppressed peoples.
- Six—The discontinuance of annexation and the substitution of trusteeship with responsibility to the opinion of mankind.
- Seven—The invalidation of all secret treaties.
- Eight—The protection of dependent peoples.
- Nine—High standards of labor under international supervision.
- Ten—The international co-ordination of humane reform and regulation.

To a crowd which surrounded his private car yesterday at Mandan, N. D., President Wilson delivered a week of travel in the heart of the country has convinced him that the nation stands together for an international guarantee of peace.

"I am glad to get out to see the real folks," he said, "and to feel the touch of their hands and know as I have come to know how the nation stands together in the common purpose to complete the peace."

WOMAN AWAKENS TO FIND BURGLAR IN ROOM; \$300 IN JEWELS STOLEN

Thief Slits Screen and Enters Home of Malcom Baker, Webb Place and Makes Clean Getaway—Attempt Is Made to Steal Automobile.

Awakened early this morning and glancing in the mirror on which the moonlight was playing, Mrs. Malcom Baker, Webb Place, was startled to see a dark form crouched in the doorway. She called her husband but by the time he awakened the man had left the house taking with him jewelry valued at \$300.

The police department was called shortly after 6 o'clock and the investigation showed that a slit had been cut in a screen in a window. The screen had then been unlatched and the burglar evidently planned his escape by opening the door so he could make a hasty exit.

For the noise was slight which awakened Mrs. Baker and the burglar did not make a sound leaving the house.

Evidently before entering the room of Mr. and Mrs. Baker, he had rifled the chiffonier in the baby's room where the child was sleeping. He escaped with Mr. Baker's trousers containing about \$10 and his watch, and a jewelry case containing valuable stick pins and miscellaneous jewelry belonging to Mr. Baker.

This morning James Passman of the Passman Electric store notified the police that his home at 163 North twelfth street had been entered last night, but it was not discovered until

OFFICIALS SEEK STATE O. K. FOR PURE WATER PLAN

Auditor, Service Director
and City Solicitor Consult
With State Health Board
On Proposed Improve-
ment.

City Auditor Dodd, City Solicitor Ashcraft, Taylor Kussmaul and Service Director Wilson are in Columbus today consulting with the state board of health relative to the water purification plant which it is proposed to install in connection with the waterworks.

Council, Monday night, approved plans for the plant drawn by a firm of Columbus engineers. The vote was five to four for approval—not a unanimous vote as was stated.

It is predicted in city hall circles that the plan will find strong opposition when the time comes to pass the final legislation to provide funds for the plant. It is said that an effort is being made to have the health department condemn the water here so the bond issue legislation can be passed as an emergency measure to avoid the necessity of a vote on the proposition.

The plans as submitted by the engineers call for an expenditure of \$250,000 for the construction of purification and softening basins, and the purchase and installation of additional pumps.

BOLSHEVISTS CLAIM CAPTURE OF 12,000

London, Sept. 11.—A Bolshevik wireless dispatch from Moscow today claims the capture of nearly 12,000 prisoners from Admiral Kolchak's All-Russian forces in the region of Khatanga and Olenok in the province of Turukhansk, southern Russia, south of the Orenburg district. It is declared the surrender of the remainder of Kolchak's southern army is expected.

MUNITIONS BLOW UP.
Cologne, Sept. 11.—A munition magazine exploded in the neighborhood of Newstadt this morning. Two hundred persons were injured and it is believed many were killed.

KEY WEST HOUSES ALL DAMAGED BY HIGH WIND

Harbor Filled With Tangled
Mass of Fishing Vessels
and Other Craft.

Key West, Fla., Sept. 11.—With daylight today following the storm of yesterday, the people of Key West and surrounding territory were able for the first time to survey the destruction wrought by the hurricane that swept through here Tuesday night. Not a house in the city had escaped in damage and many were totally wrecked. The harbor presented a tangled mass of fishing vessels and other small craft, but latest reports failed to show deaths other than those on the dredge Grampus.

Of the 14 men on this craft, ten were rescued last night, one body was recovered and three are missing.

The British Tanker Tonawanda, which was said to have been scuttled to save the liner Colma after the vessel had broken her moorings and gone aground was reported not in a bad position. The steamer St. Gougal also broke loose.

No vessel had left port early today nor had any trains come in over the Florida East Coast railway. In addition to the temporary stoppage of gas and electricity, the telephone service was suspended and newspapers were forced to suspend publication. Some business places, all of which were closed yesterday, including restaurants, were opened today. A survey today of the situation resulting from the storm was expected to determine whether it would be necessary to ask outside assistance.

SEVEN DIE IN STORM WHICH SWEEPS CUBA

Havana, Wednesday, Sept. 10.—The storm, accompanied by heavy winds, which for two days has swept the Cuban coast was rapidly abating tonight, except for intermittent heavy rainfall. The United States shipping board's steamer Hillsborough County, Captain Roberts, is ashore 14 miles east of Matanzas. The vessel grounded on a sandy bottom, but was carried so far inshore by the waves that it will be difficult task to salvage her. Tugs have gone to the assistance of the steamer, the crew of which is safe.

Anxiety is felt here concerning the Spanish steamer Valbanera, from Spanish ports for Havana and New Orleans which arrived off Havana yesterday morning and at last accounts was endeavoring to ride out the storm. There also was no news tonight concerning the steamer Moterey from New York. The dead list as the result of the cyclone was given tonight as seven. The persons were electrocuted by fallen wires and four were drowned. The debris in the street is rapidly being cleared.

OHIO PARTY SAFE KODIAK, ALASKA, TUESDAY, SEPT. 9.— (Delayed)—A national geographic surveying expedition, headed by Robert F. Griggs of Ohio State university arrived here safely today after spending the summer exploring Mount Katmai in the "Valley of the 1000 Smokes" on the Alaska mainland.

NINE GAMES IN WORLD SERIES

Club Owners in Two Big
Leagues Vote To Increase
Number of Contests for
Championship.

Cincinnati, Sept. 11.—Nine games will be played in the world series baseball games this year, nearly every school year, August Herrman, chairman of the national commission announced today.

Herrman said a majority of the clubs of both the National and American Leagues had ratified the recommendation that nine games be played.

Herrman said that the vote of the clubs on the proposition to lengthen the schedule from seven to nine games would not be given out at this time. A schedule of nine games will be prepared by the national baseball commission but the series will be over and the winner determined as soon as one of the clubs wins five games.

SECTION HANDS FIGHT; ONE DEAD

Nelsonville, Sept. 11.—A fight between Hocking Valley railroad section hands at East Clayton, Athens county, Wednesday afternoon at 4 o'clock, Jas. Lenas shot and instantly killed Jas. Moller, 24, a native of Turkey, according to police. After seeing what he had done, Lenas is said to have run from the boxcar where the fight occurred and disappeared. Sheriff Parker arrived with bloodhounds in the evening, but all efforts to locate Lenas have been unavailing.

STRIKE THREAT CAUSES BREAK ON STEEL ISSUES

Declines of Four to 11
Cents Recorded In First
Hour of Trading in Wall
Street Thursday.

New York, Sept. 11.—Announcement of the proposed strike of steel workers caused heavy selling and violent declines among leading industrials at the opening of today's stock market.

Trading in United States steel was so exciting and confusing that the first quotation for that stock did not appear until 10:15.

Steel common opened with a block of 12,000 shares at 101 to 102 1/2, followed by smaller offerings at 102 7/8 and 103 5/8, as compared with Tuesday's final price of 105 7/8.

Crucible steel made an initial decline of 11 points, Bethlehem dropped almost eight and Republic Iron four. Other active stocks, including Mexican Petroleum and similar speculative issues opened at declines of two to six points.

There were various rallies in the hour. Substantial support was shown at the lower levels, after which the market settled down to comparative dullness.

United States steel rallied two points, Bethlehem four, Crucible six, and Mexican Petroleum five. In a few cases, notably Baldwin Locomotive, United States Rubber and American International, the declines were reduced to nominal proportions.

PERSHING HAS FULL DAY IN NEW YORK

New York, Sept. 11.—General John J. Pershing's last day in New York as the guest of the city found him on the move from early morning, with every hour set aside on his program in a round of visits, receptions and luncheons to terminate tonight with a mass meeting of the American Legion in Madison Square Garden.

ZANESVILLE POLICE JOIN LABOR UNIONS

Zanesville, Sept. 11.—John O'Rourke, Zanesville's oldest patrolman in point of service, is the first president of City Police Union, No. 16924, organized at a meeting of city patrolmen Wednesday evening. Other officers of the new organization are: James Honnold, vice president; Foster Spring, corresponding secretary; Harry Kearns, financial secretary; Albert Ziemer, treasurer; delegates to Central Trades and Labor council: John Roach, Raymond Pierson and George Price. The organization received its charter Wednesday and is now a full fledged union, affiliated with the American Federation of Labor.

WIFE BORROWS \$5 FROM HUBBY TO GIVE LOVER

"I'll go back, but you have to give me \$5 to give to Ernest," said Mrs. Ollie Briggman to her husband yesterday, after she and Ernest Rife had been arrested, following their elopement from New Springfield, Mass.

And hubby gave her the money. J. G. Briggman had followed his wife here and following her arrest was endeavoring to persuade her to return to New Springfield with him. Only the threat of incarceration in jail or the alternative of returning with her husband prevailed upon Mrs. Briggman to return, and before consenting she asked for the money which was given her.

Mrs. Briggman also told the jail officials that she would go back home, but that she was going to get a divorce, claiming she knew something which would permit her to get a separation.

45 ADRIFT IN BOATS FOLLOWING BIG STORM

Miami, Fla., Sept. 11.—A wireless message received here early this morning said 45 persons were adrift in small boats between Key West and Key Largo, about 15 miles from Miami. All were reported "in distress" and without food or water. No details were given and there was nothing to indicate their identity, but it was presumed they were members of crews of ships that went down during the hurricane that swept this section early yesterday. Boats have left here to bring them in.

MOVIE FILM COSTS LIFE OF CINCINNATI BABY.

Cincinnati, Sept. 11.—A roll of moving picture film tossed upon a city dump today cost the life of Margaret Forbes, 2 1/2 years old, daughter of Ralph Forbes railroad switchman. Late Wednesday Margaret and a number of other children came upon the abandoned film. One of the children obtained matches and unwinding the film, began to show the pictures by placing lighted matches behind the film, which took fire. A tongue of flame ignited the dress of Margaret. The child was rushed to a hospital where she died today.

LUNCH VENDOR IS BURNED IN GASOLINE BLAZE

Fuel Ignites When Cochran Attempts To Fill Gasoline Tank—Skin Burned From Arms.

Ralph Cochran, 68, of Buckeye Lake was seriously burned at the fair ground at 11 o'clock this morning, when gasoline with which he was filling a stove ignited.

Mr. Cochran with his daughter Mrs. N. B. Vannatta were in a lunch stand. They had turned out the stove but a spark must have remained ignited in the igniter, for the gasoline can and contents burst into flames. Mr. Cochran threw the can out of the tent, but not before his hands and arms to the elbow were badly burned and his side was also burned.

He was taken to an emergency tent nearby and Dr. J. G. Shirer and Dr. W. E. Jackson were called through the local police department. Dr. Shirer dressed the injuries and removed him to the home of his daughter in Riley street. The arms were so badly burned that the skin came off in large patches.

BOSTON ASKS FOR FEDERAL TROOPS

Governor Wants Naval
Force and Regular Army
Soldiers Held In Readiness For Emergency.

Boston, Sept. 11.—Regular army troops have been requested of Secretary Baker and naval reserves have been asked to be ready to respond to a call by Governor Coolidge to help maintain control in this city where rioting has followed a strike of the entire police force.

The death list in the disorders mounted to five today with the death of a girl, shot by troops, in South Boston last night, and that of Raymond Sawyer, who was shot through the neck today while resisting arrest.

Five thousand state troops, all that are available, are patrolling the streets and are maintaining some semblance of order.

PARIS PACT IS PEOPLE'S TREATY WILSON ASSERTS IN BILLINGS SPEECH

Declares It Is Not Wise For Parliaments and Congresses
To Tangle With It—Reject Treaty and Young Men
Will Have to Pay, He Says.

Billings, Mont., Sept. 11.—Laying his appeal for the peace treaty before the people of Montana today, President Wilson declared the question of its ratification was a question whether the United States would fulfill its pledges to its people and to the world.

Thousands of visitors from a 500-mile radius were here to greet the president. Eight thousand or more persons filled the fairgrounds auditorium within an hour after the doors were opened at 8 o'clock, and the streets were lined from the detouring place to the fairgrounds gates.

After his address here the president will depart for Helena where tonight he will deliver his second scheduled speech in Montana.

There were two addresses on his day's program, Mr. Wilson speaking at the Billings auditorium before noon so that he could reach Helena in time for a meeting at night. He arrived here from Bismarck, N. D., only a short time before the hour for his address. At the auditorium he found all of the 8000 seats taken and many standing.

Mr. Wilson said he had come west "to consult" with the people in the light of circumstances which affected the whole

GREAT CROWD IS EXPECTED AT FAIR ON CLOSING DAY

Weather Man Promises
Good Weather For Friday—Wednesday's Attendance Affected By Clouds and Rain.

With fair weather promised for Friday, officials of the Licking county fair are preparing to handle the largest crowd of the season for the closing day. Attractive features arranged for the last day are expected to draw heavily from the city and county and it is believed the capacity of the grounds will be taxed.

Wednesday's attendance was diminished by reason of the threatening weather though the officials were well pleased with the number which filed through the gates, considering the weather conditions.

Thursday brought better weather conditions though occasional clouds no doubt would have their effect on the timid ones. However, the fact that many of the stores closed and several of the factories suspended operations for the day, was counted upon to swell the attendance figures.

The poultry, swine and cattle exhibits continued to bring forth many compliments and much interest is being taken in the school exhibits. County Superintendent J. C. Marriott of Mendenhall, former teacher here, is one of the judges in the educational department.

RUMANIA SAYS LEAGUE MUST DECIDE CLAIMS

Paris, Wednesday, Sept. 10.—The Rumanian delegation to the peace conference in explaining its attitude in refusing to sign the treaty with Austria, holds that, since Rumania acquired membership in the League of Nations through signing the treaty with Germany, the league must be the tribunal which will eventually consider its claims and decide whether Rumania can be forced to accept a treaty "providing for foreign interference in her domestic affairs."

Rumania's objection to signing the treaty was based on the clause providing that nations receiving territory from the former Austria-Hungarian empire must preserve the population, the political and religious relation minority residing there.

WILSON ASSERTS IN BILLINGS SPEECH

It was a mistake, therefore, the president continued to debate the peace treaty as if it were an ordinary treaty. It was not merely a treaty with Germany, he said, but a treaty affecting a settlement of the affairs of the world.

"And it is this treaty or no treaty," he added, "it is this treaty because there can be no other."

"This settlement is the first international settlement that is based upon the happiness of the average people throughout the world. It is a people's treaty, and venture the prediction that it is not wise for parliaments and congresses to attempt to alter it."

"It is a severe treaty," the president went on, "but justly so. Some of the men who had called it a people's treaty, he added, "were criticizing the administration a year ago because they thought the United States would be too easy with Germany."

"They were pitiless then," he added, "they are pitiless now."

"The American dead in the war," Mr. Wilson declared, "had fought not for

TREATY REJECTION WOULD SACRIFICE ALL CONCESSIONS

Minority Report of Foreign
Relations Committee
Is Submitted.

DENIES PEACE CONFERENCE CAN RECALL GERMAN ENVOYS

Declares Enemy Ended This
Chance by Signing and
Ratifying Document.

Washington, Sept. 11.—Rejection of the peace treaty with its League of Nations covenant, or adoption of amendments, would mean sacrifice by the United States of all concessions obtained from Germany under a dictated peace, minority members of the foreign relations committee declared in a report presented today to the senate.

The report, prepared by Senator Hittcock of Nebraska, ranking Democratic member of the committee, urged speedy ratification of the treaty without amendments or reservations. It deplored "the long and unnecessary delay to which the treaty has been subjected, while locked up in the committee, whose recommendations were from the start a foregone conclusion," and asserted these recommendations could have been made in July.

Senator Shields, Democrat, Tennessee, did not sign the report, having announced that he favored league covenant reservations proposed by Chairman Lodge. It was stated that he would not present a separate report. Those signing the report to the senate were Senators Williams, Mississippi; Swanson, Virginia; Pomeroy, Ohio; Smith, Arizona; Pittman, Nevada—all Democrats.

The minority denied the claim put forth in Chairman Lodge's report that the peace conference still was in session and has power "to bring German representatives to Paris," saying such power of compulsion had been exhausted and that Germany had closed the chapter by signing and by ratifying.

"If an amended treaty is not signed by Germany," the report added, "then it is in none of its parts binding on her."

The report mentions 12 concessions the United States would lose by failure to ratify the treaty, these including industrial and economic advantages and agreements.

Reservations proposed by the majority, the report said, "have the purpose of destroying the league, which has stood 'the test of world-wide criticism and unlimited attack.'"

The minority urged that the work of the peace conference be confirmed and the peace of the world advanced by ratification of the treaty described as the best hope of the world, "even if like all instrumentalities it be not divinely perfect in every detail."

The report contended that the industrial world was "in a state of confusion" and "in doubt," and commerce halted while delay on the treaty had been caused "by the majority of a committee known to be out of harmony with the majority of the senate and the majority of the people of this country."

This was declared to be governed by obstruction as well as by minority. Export trade, the report said, had suffered because of delay in ratification; that private trade, which has been advancing to European governments has about reached the end of its authority given it by congress. Private enterprise, it said, from now on, must keep its eyes on the United States.

Answering the majority's report, the minority said that the armistice amounted to only 14 cents worth of American products for each person in Germany, or two cents per person per month.

"Referring to the action of the majority committee," said the report, "we unite in opposing and condemning the recommendations both as to textual amendments and as to proposed reservations."

"We are for the peace treaty and amendments are concerned with no reason to discuss their character at length. In our opinion they have no merit, but neither they be good, bad, or indifferent, their adoption by the senate can have no possible effect on the treaty."

A TON OF BRICK ON MAN'S BACK

Dayton Citizen Could Get no Relief Till He Found New Root and Herb Medicine, Drego.

"I had such awful pains in my back that sometimes it felt like a ton of brick was being driven down on me, and I could find nothing that gave me relief." That is how Mr. James Rice, the well known man at the National Soldiers' Home, Dayton, O., described his suffering. "But the new medicine," Drego, has made a new man of me."

"In addition to the kidney pains, I also had constipation and headaches, pains in my limbs. I was so nervous that I never got a night's sleep, and my appetite fell to almost nothing. My work is pretty hard, and I knew a man in my condition was liable to have a breakdown. I had bought several kinds of medicine, which I had seen advertised in the papers, but none but my case. I have always had faith in the old time root and herb medicines, though so when I read about Drego I got a bottle. The improvement began almost immediately. The headaches, my nerves became quieted, and I began to sleep the whole night through and wake up refreshed. The pains in my back grew less day by day and now I have no pains at all. Any medicine that will do that kind of work should be told about to every one, and that is why I am willing to have you publish my case."

Drego acts on the bowels and relieves constipation, thereby moving the cause of many troubles. It will be no use after taking Drego, the headaches fail to appear, the nerves are soothed; sound sleep is induced, the appetite increases; no more dizzy spells; the stomach digests the food without having gas to follow, and the kidneys perform their duty of straining impurities from the blood thereby putting a stop to rheumatism and other disorders.

All good druggists now sell Drego, and it is highly recommended by Dr. J. Evans Cut-Rate Drug Store—Adv.

TELLS DYSPYPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc. Heartburn and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can take a safe, direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of pills or artificial digestants.

Get a few ounces of Bisulphated Magnesia from any reliable druggist. Ask for either powder or Tablets. It never comes as a liquid, milk or citrate and in the bisulphated form is not a laxative. Try this plan and eat what you want all your next meal and see if this isn't the best advice you ever had on "what to eat."

FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy. Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, itch, pimples, rashes, blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

TREATY REJECTION

feat the participation of the United States in the treaty. None of them could by any possibility be accepted even by the great nations associated with the United States in the war, and none of them could by any possibility be dictated to Germany. To adopt any one of them, therefore, is equivalent to rejecting the treaty.

"To adopt an amendment or to reject the treaty means that the United States will sacrifice all of the concessions secured from Germany by a dictated peace. While these concessions are so large as those which other nations associated with us secure in reparations they are nevertheless of tremendous importance and could only be secured under a dictated peace. Among the concessions which the United States would sacrifice may be included the following:

"First—Germany's acknowledgement of responsibility for the war and her promise to make restitution for damages resulting from it.

"Second—Germany's promise to us in the treaty that she will not impose high or other customs duties or charges on our goods than those charged to the most favored nation and will not prohibit or restrict, or discriminate against, imports directly or indirectly from our country.

"Third—Germany's promise to us in the treaty that she will make no discrimination in German ports on shipping bearing our flag and that our shipping in German ports will be given as favorable treatment as German ships receive.

"Fourth—That for six months after the treaty goes into effect, no customs duty will be levied against imports from the United States, except the lowest duties that were in force for the first six months of 1914.

"Fifth—Germany's agreement with us that the United States shall have the privilege of reviving such of the treaties with Germany as were in existence prior to the war as we may alone desire.

"Sixth—Germany's promise to us to restore the property of our citizens seized in Germany or to compensate the owners.

"Seventh—Germany's very important agreement, validating all acts by the United States and by the alien property custodian by which we seized and proceeded to liquidate \$300,000,000 worth of property in the United States belonging to German citizens.

"Eighth—Germany's agreement that the proceeds of the sale of these properties may be used to compensate our citizens in Germany if Germany fails to do so, or to pay debts which American citizens owe to American citizens, or to pay America's pre-war claims against Germany for property destroyed and lives taken, similar to the losses because of the destruction of the Lusitania.

"Ninth—Germany's agreement that she will compensate her own citizens for property, patents and other things belonging to them in the United States seized during the war by our government.

"Tenth—Germany's agreement that no claim can be made against the United States in respect to the use of sale, returning the war by our government or by persons acting for our government of any rights industrial, literary or artistic property including patents.

"Eleventh—Germany's agreement that the United States shall retain over 500,000 tons of German shipping seized in American ports, which much more than compensates us for shipping lost during the war.

"Twelfth—Germany would lose our membership on the reparations committee which will be the most powerful interest today ever created and which will have enormous control over the trade and commerce of Germany with the rest of the world for years to come. It not only supervises the use of German enormous resources and payment of reparations but it can restrict or expand Germany's imports and distributes much of her desirable exports including arms. In no way can the United States assure itself against discrimination in German imports and financial policies unless we have a member upon this great reparations commission."

PARIS PACT

the redemption of a merciful but for the redemption of the world.

"It was one of the hardest of his trials during the war," he said, "to be merely to direct the policies of the nations and not to take a gun and go myself."

"The basic principle of the treaty," said Mr. Wilson, "was that the territory which belongs to the people who live upon it, belongs to the people who live upon it." He added, "has very few compromises in it," following in general American specifications. Should it fail, he declared, "it would be impossible to get together again the elements necessary to make a new settlement. The United States either must take the treaty," he said, "or play a lone hand in world affairs. If you're going to play a lone hand," said he, "the hand that you play must have a weapon in it. And the weapon must be all the young men of the country, and the business of the country must pay the piper."

"There was a spirit of direct every-where," he continued, "and it was the province of the treaty to set up an industrial democracy as well as a political democracy." He continued, that there were many questions to be settled in this connection, that there could be no industrial democracy as long as monopolies continue.

He was interrupted by applause when he ended.

"And we have not yet finished with the monopolies."

Citing again the upheaval in Russia, the president asked if his hearers had not seen evidence of the spread of unrest. It was the "dread" of every statesman in Europe, he continued, and a propaganda was spreading in the United States.

"There were apostles of Lenin in our midst," he said, "and it means to be an apostle of darkness. Our business is to see that no minority no matter how rich, no matter how poor shall get control of the United States."

"The purification of political conditions never could be accomplished until the treaty was accepted and peace established. Some men debating the treaty," he added, "seemed to think there was lustre, but there should be no lustre on such an issue."

Repeating declarations made in his previous addresses the president said that the whole heart was in the provision for discussion of international controversy.

"You can't hate a fellow you know," said Mr. Wilson. "I know some crooks that I can't help hating."

He added, that as long as there were

GIRL HIKER WORKS AT ODD JOBS TO GAIN EDUCATION

Miss Theresa Tromp.

Miss Theresa Tromp, formerly a California girl, who is a champion hiker and globe-trotter, is obtaining her education by working at odd jobs in various towns. At present she is in Denver, Colo., where she is working for the U. S. government. She is saving her money to continue her education and will enter Columbia University as soon as she has the required money.

things that should be corrected he did not ask that ten stop agitating, but requested only "that they agitate in an orderly manner."

Mr. Wilson read from a naval appropriation bill pushed by congress during the war, requesting the president to try to secure in international court to settle international disputes and accomplish disarmament.

"And now they've got it," he continued "they don't like it. It came much sooner than they expected and apparently took them so much by surprise that it confused their minds."

Mr. Wilson said he "repudiated" the suggestion that the other nations were not acting in good faith in forming the league and asked that any instance he cited in which France, Italy, Great Britain or Japan had not fulfilled their promises.

"Japan has kept her engagements," said the president, adding that he had the fullest confidence that all the league members would act in good faith.

The president said he was "just as sure of what the verdict of this nation would be as if it had already been rendered." His contact with the plan people had convinced him, he said, that the United States wanted the League of Nations.

BOLSHEVISTS LOOT U. S. EMBASSY IN PETROGRAD

Washington, Sept. 11.—Looting of the American and other embassies in Petrograd has been confirmed by an investigation made for the state department. It was announced today by Acting Secretary Phillips. A cablegram dated September 6 said that Bolsheviks during the middle of July sacked the American embassy, which since had been used for housing families of some of the Bolsheviks arrested by the Bolsheviks in these raids have been sent to Moscow, it was said.

In the raid on the American embassy, Miss Karin Sante was at first put under arrest and later released but sent to Moscow with the other foreigners. The Misses Kennedy and Levisgine, other employees, were not molested. None of these were Americans. Miss Sante was a Finnish employee of the embassy who connected to remain in charge of the embassy premises and archives. Most of the embassy archives had been removed from Petrograd.

Recently an emissary, not an American, sent into the territory to ascertain the facts regarding looting of the embassy was killed by the Bolsheviks.

SWISS DELEGATION COMING. Hamilton, Sept. 11.—A cablegram received today that a Swiss delegation of economists are to visit Ohio industrial centers on the hunt for American ideas and methods. The delegation has communication with the Hamilton chamber of commerce desiring to be shown through local manufacturing plants shortly, the date depending upon their arrival in this part of the country.

WILL QUEST LABOR DELEGATION. Seattle, Wash., Sept. 11.—President Wilson had agreed to meet a delegation of representatives of northwest organized labor next Sunday for a conference, which it is declared by local labor men, will deal with the release of "political" prisoners.

VOTE DOWN DIRECT ACTION. Chicago, Sept. 11.—By a comparative close vote the trades union congress in session today voted down a resolution declaring against the principle of direct action. The vote was 2,255,000 against the resolution to 2,050,000 in its favor.

VOTE WILL SETTLE DISPUTE. Paris, Sept. 11.—A plan for the settlement of the question of the Teschen mining district in dispute between Poland and Czechoslovakia was adopted by the supreme council at today's session. It was agreed that a plebiscite be taken in the district.

ARMY FOOD SOLD. Hamilton, Sept. 11.—A carload of surplus army food, placed on sale here, was stormed by bargain-hunting housewives, who made short work of the supplies. The sale opened at 3 p. m. yesterday.

WATCHES THIEVES TAKE LIQUOR. Toledo, Sept. 11.—While tied to a chair, George Glank, living near here, watched thieves carry away his home liquor stock of 24 cases of whiskey. The men, seven in number, overpowered Glank when he refused to give up his refreshments.

PRESIDENT AGAIN

(Continued From Page 1)

what the boys did who carried their guns with them over the sea."

SAYS WILSON'S WORDS DO NOT AGREE WITH FACTS

Chicago, Sept. 11.—Three Republican senators began here yesterday their campaign in answer to President Wilson's speaking tour in behalf of unreserved ratification of the peace treaty and league of nations.

The first speech of the campaign was made by Senator Johnson of California this noon before the Hamilton club.

Senator Johnson directed his address against statements made by the president, saying that "his report to his fellow countrymen concerning those affairs of the world which now need to be settled" had aptly decorated and rather "intemperate and harsh criticism."

"The inexorable facts make the issue with Mr. Wilson," Senator Johnson declared. "When he says that the league of nations is the only conceivable arrangement which will prevent our sending our men abroad again very soon, and that because of it the boys in khaki will not be ordered into foreign lands, the day's events, the present conditions, answer and confound him."

At the very time he was making these statements American boys were being ordered by the British government to the front lines of nations now to embark from this country to Silesia to patrol coal mines and police that territory.

"As the president made his boast of no khaki-clad boys across the sea, American youths were being slain in Asia, at Vladivostok and in Siberia, in a war not declared by American people of the American Congress, but directed in secrecy at the executive and cabinet for which he pleads unless vitally amended, ties us until 1921 in the international affairs of Germany and all Europe."

"Although every other member of the peace conference and every American expert there develops and denounces the Shantung decision not only as morally wrong, but as infamous, Mr. Wilson saw fit to justify it."

"The president's accusations against the senate are as unsound and unfounded as his repeated utterances that the high cost of living is in part due to failure to immediately ratify the treaty."

GET HEARING IN CLEVELAND

Youngstown, Sept. 11.—A dozen saloonkeepers, under arrest on charges of selling liquors, were taken to Cleveland this morning to receive a hearing by the federal authorities who caused the arrests. Federal agents had been here for some time gathering evidence, which was said to show the liquor was being sold openly, although at higher prices, across local bars.

NEW HAMPSHIRE RATIFIES

Concord, N. H., Sept. 11.—The New Hampshire general court completed ratification of the federal equal suffrage amendment today, when the senate adopted the ratification 14 to 10. Similar action was taken in the house Tuesday.

CHICAGO K. T.'S WIN

Philadelphia, Sept. 11.—The Englewood Commandery team of Chicago was today awarded first prize in the competitive drill of the Knights Templar. The team, consisting of Indiana, Illinois, second; Chicago Commandery, No. 19, third; and Lansing Commandery, No. 25, Lansing, Mich., fourth.

SWISS TO SEE STEEL MILLS

Youngstown, Sept. 11.—Preparations have already been made here for receiving the Swiss economic mission, which landed from the same liner which brought Justice Brandeis home this week. The Swiss will study steel manufacture here.

GERMANS SEND PROTESTS

Paris, Sept. 11.—The German delegation at Versailles today delivered a note from the German government protesting against alleged attacks by Polish bands along the Upper Silesian border.

MAKES WEATHER BUREAU PART OF AIR SERVICE

London, Aug. 21.—(By Mail)—Meteorological work of the British empire is to be taken over by the Royal Air Force. Hitherto the study of the weather has been the work of a number of different departments, but its increasing importance of aviation and the essential part which meteorological knowledge must play in its progress, has brought about the change.

The air force has its own department already and the others will be linked up with it. It eventually will form a branch of the international service which will study wind and weather all over the world.

A Dangerous Affair.

Charles Miller announces as the title
for the first of the series of four spe-
cial productions released by Frank G.
Hall, vice president of the Miller com-
pany, "A Dangerous Affair," with Her-
bert Rawlinson, supported by Florence
Billings, Stuart Holmes, Warren Cooke,
Charles Stevenson, Vinton Friedley,
Regina Quinn and Ernest Torrence, in
the leading role.

"A Dangerous Affair" is the first of
coming under the banner of the Charles
Miller Production company, Inc., Mr.
Miller's own independent company, and
Hall through his distributing branches,
the Film Clearing House, Inc. It was
personally directed by Mr. Miller, as-
sisted by Albert Cowles, with Edward
Earl as cameraman.

In this production Mr. Miller be-
lieves that he has given to the screen
a picture containing a full quota of
entertaining value and an all-star cast,
each member of which is recognized as
an artist in the art of interpreting the
silent drama. Herbert Rawlinson is
one of the screen's best known stars
and leading men, and his support con-
tains the names of those who have
proved by their performances in other
big screen production, that they are
masters of their art.

The production presents four distinct

Vod-A-Vil.

The special feature "A Dangerous
Affair" will be shown tonight for
last time. Spanuth's original Vod-a-
vil is also shown and altogether a
wonderful picture program is offered
Alhambra movie fans. The last show-
ings are seen tonight.

GRAND.

"The Bishop's Emeralds."

Virginia Pearson's first picture since
she arrived to the dignity of having her
own producing company, "The Bishop's
Emeralds," will be shown at the Grand
theatre tonight. Here is one instance,
at least, where an artist has profited
artistically by making such a change.
"The Bishop's Emeralds" has granted
to Miss Pearson opportunities such as
she has not previously enjoyed for
emotional work of a high order in situ-
ations which are novel and strongly
dramatic.

Mr. Sheldon Lewis deserves much
praise for his strikingly sinister and
cold-blooded, gentlemanly crook, who
attempts to ruin his ends and who
accomplishes his criminality with the
polished air of the man of the world.

eye. Glad in a pair of cast-off trousers
much too large for her, a rough shirt
and a pair of brogans, Mickey runs
wild, the idol of all who know her.
After many humorous happenings, in
which the spice of many thrills is in-
termingled—Mickey rides in a horse race,
escapes from a villainous admirer by
sliding down the precipitous slope of a
roof four stories up, and does other
hair-raising things—the young man
bards her safe and sound and all is well.
Even the gold mine turns out to be a
winner.

Mickey is now showing at the Auditor-
ium today and the balance of the week.

The Hoodlum.

Mary Pickford as Amy Burke in "The
Hoodlum," her second production from
her own studios, which will be seen be-
ginning Monday at the Auditorium
theatre, plays the part of a girl whom
education is having a desperate time
trying to affect.

All of the millions of Alexander
Guthrie, her grandfather, fail to do little
for Amy's schooling other than provide
her with a specially constructed desk
which gives her a mirror, four combs,
three shades of powder puffs, a faucet
for cold buttermilk, one pair of shell
glasses, one bag of mints, two novels by
George Elliot and one pen without a
holder.

Amy's training however, takes a de-
cided spurt when she voluntarily goes
with her father, a sociological writer in-
vited to the tenement districts where he
writes a book on citizenship.
And while her father bends to the task

ing and swimming contests at the
famous Camp Woburn for girls on Lake
Sebago in Maine; a tour of the vast
Bethlehem, Pa., steel plants; and visits
to the homes and haunts of the big
motion picture stars, including Douglas
Fairbanks, Mary Pickford, Edith Storey,
Dustin Farnum and others. The pro-
gram is rounded out by a number of
trick pictures and animated cartoons
that are decidedly amusing.

Liberty Bell Week.

The week beginning Monday, Septem-
ber 22nd, will be generally observed by
bands, orchestras and other musical or-
ganizations throughout the United
States as "Liberty Bell Week" in recog-
nition of the fact that on Monday, Sep-
tember 22, 1892, John Philip Sousa at
Plainfield, N. J., gave the first concert
of Sousa and his band, and at the same
time gave to the world his Liberty Bell
March, which has been for the past 27
years which have elapsed, one of the
most famous marches ever written. The
composition of this number was in-
spired by the fact that about that
time, in 1892, the revered liberty bell
was for the first time in its history
taken from Independence Hall, Phila-
delphia, and transported to Chicago
where it was subsequently looked upon
by countless thousands of Americans at
the Chicago World's Fair.

Morning Matinee.

Manager Fenberg is surely the "kid-
dies friend" for in this issue he makes
a special little treat for children on
next Saturday morning at 10 o'clock at
which time a special morning matinee
will be given for the school children of
Newark and vicinity at which time he
is giving a special price of 11 cents
this covering the war tax. "Mickey"
is not shown anywhere for less than the
regular price (28-39 and 50 cents, and as
Fenberg wishes all kiddies to see it, and
knowing that the prices for some kids
are beyond their means, he has pre-
vailed upon Mr. Thomas of the "Mick-
ey" picture in giving the children a
treat on Saturday morning. The doors
will open at 9:45 and the screening will
start promptly at 10 a. m. and mothers
can look for their children home at
noon.

RHEUMATISM LEAVES

Deep Seated Uric Acid Deposits Are
Dissolved and the Rheumatism
Starts to Leave the System Within
Twenty-four Hours.

Every druggist in this county is au-
thorized to say to every rheumatic suf-
ferer in this vicinity that in two bottles
of Allenru, the sure conqueror of
rheumatism, does not stop at agony, re-
duce swollen joints and do away with
even the slightest twinge of rheumatic
pain, he will gladly return your money
without comment.

Allenru has been tried and tested for
years, and really marvelous results
have been accomplished in the most
severe cases, where the suffering and
agony was intense and piteous and
where the patient was helpless.

Allenru relieves at once. Immedi-
ately after you start to take it the good
work begins. It searches out the uric
acid deposits, dissolves the secretions
and drives rheumatic poison out of the
body through the kidneys and bowels.

It's marvelous how quickly it acts.
Blessed relief often comes in two days,
and even in cases where the suffering is
most painful all traces disappear in a
few days.

Mr. James H. Allen, the discoverer
of Allenru, who for many years suf-
fered the tortments of acute rheumatism,
desires all sufferers to know that he
does not want a cent of anyone's money
unless Allenru decisively conquers the
worst of all diseases, and he has in-
structed Evans' Drug Store to guaran-
tee it in every instance.—Adv.

AMERICANIZATION CAMPAIGN.

As the effort to Americanize adult aliens through night schools connected with the public day schools has been to a large extent a failure, the question arises as to what should take its place. No one wants to see these night schools given up. On the contrary they should be greatly extended and improved. But with the difficulty of getting appropriations is it evident that some wholly new basis for Americanization work will have to be found.

Some corporations and other employers of labor are holding classes in their factories to teach English to their alien help. It is probably the most efficient method yet devised to instruct foreigners in American speech. An employer or corporation able to conduct a successful business, would see that English work done in that factory amounted to something. They would never hand out baby books of infant literature to adult people.

And most aliens would jump at the chance to get instruction under such circumstances. They could very clearly see that they would gain more than their employer, and that the results would soon be seen in their pay envelope.

Probably many employers of the most conservative type would regard such efforts as a work of philanthropy that should be kept distinct from business. Yet those who have taken up this line of effort express confidence that it pays, even if they have to settle all the bills. Thereby they get more intelligent, productive help, who can be reasoned with. But the aliens who get the instruction, and the community that gets the benefit of the better Americanization, might well be expected to contribute something to carry on such lines of work.

WHY NOT CLEAN HOUSE.

Now the esteemed legislature is to have a shake up in its clerical force because of the many, many mistakes in legislation made during the past month. If they decide to eliminate all clerks now on the job why not make it a good job and clean out the whole crew. It would make the legislature popular for once.

But of course the expenditure of a few more thousand of dollars of the state's money in an extra session of the legislature, caused by the grossest and most inexcusable carelessness on the part of its clerical force, will not mean anything to a legislature that has squandered the state's money in appropriations so huge that it has no idea in the world where the money is coming from to pay the bills.

While many farms in the central states are selling for \$50,000 to \$100,000, some of those ambitious boys who left the dull country to work at the city store ribbon counter are striking for \$20.00 a week.

President Wilson emphasized the fact that America is the only great nation in which all the world trusts and those nations are willing to see if their trust is justified.

The Mexicans have promised to restore order in their country by limiting the number of Americans that can be killed to one a week.

THE LEGISLATIVE BUNGLING.

The state of Ohio has still further reason to bow its head in shame over the oft demonstrated inefficiency of the legislature. Another clerical error just discovered, makes necessary an extra session of the continuous legislature. The error was made this time in the enrolling of the bill submitting classification to the voters in November. This is about the "scumteenth" error in bills passed by the legislature that has been discovered. How many more exist only the creator knows. Enough have been brought to light to condemn the management of the body even if Ohio voters had not already condemned it for lack of purpose, lack of program and for making itself ridiculous before the entire state on many occasions.

Rumors that this mistake wasn't really a mistake but was made on purpose, have been in the air. They arise no doubt from the fact that other dealings that will not bear the light of day have been mentioned from time to time. The same legislature once investigated itself and wrote out a clean bill of health, save and except that which was already known to everyone. It will now be in order for another probe and whitewash. Go to it, boys, there'll soon come a time when you can't.

NEW SCHOOL YEAR.

To conduct a successful democracy there must be an educated body of citizens. To carry the burdens of the times these citizens may be economically efficient. Only through education can good citizenship and productivity be achieved. So upon the success of the schools the future of America depends.

All this is realized well enough by the teaching forces of the schools. No group of people is more earnest or conscientious. Not as much can always be said of the boards and committees and trustees that control public schools, who in many cases seek their positions as a part of the political game. Still the majority of these school authorities give time to this work as a matter of public spirit and are doing their best.

Most parents pass their children over to the schools to be educated and give no further thought to it. Hence they can not act intelligently when their support is needed.

Parents with children in the schools of Newark should make a serious effort to acquaint themselves with the aims and methods of education as conducted here. They should show personal and social attention to the teachers of their children. They will find it pays. The closer their touch with the schools, the better backing they will give to the school work.

Pupils whose parents are indifferent or ignorant of school work, are not apt to take much interest in their lessons. When they feel that their parents are keenly interested in what they are doing and believe in it and support the methods and purposes of the schools, then the children realize the importance of their tasks and devote themselves to them with enthusiasm. Too frequently the home influence tends to break down school discipline, and encourage children to acquire an insubordinate attitude.

It is denied that the government employees aren't working hard nowadays, as they are straining every nerve to get their salaries increased.

Great demand reported from the singers for "heart songs" which the song writers will gladly turn out for a cent a copy royalty.

The senators have promised to expedite the peace treaty by limiting themselves to short speeches of 24 hours each.

The fact that the soldiers are all welcomed home with a great pow-wow does not prove that all of them have got jobs.

The politicians are now explaining at the cattle show how interesting they are in farming, particularly fence building.

Daylight saving having been repealed, the farmers can now all get down to the movies after supper.

Did You Know

That the oldest known sarcophagi are those of Egypt? Some of them are contemporary with the pyramids. The earliest of these are of a square or oblong form, and either plain or ornamented with lotus leaves. The ornamented ones are of the form of swathed mummies, and bear inscriptions. The Phoenician and Persian kings were also buried in sarcophagi. The Roman sarcophagi of the earlier republican period were plain.

LITTLE TALKS ON THRIFT

By S. W. STRAUS, President of the American Society for Thrift.

This means most substantial and permanent results may be accomplished.

The best time to study thrift is during the golden days of youth. Wasting habits have not then been acquired. There is nothing to unlearn. The child is as willing to learn the principles of thrift and apply them to his daily life as he is to be wasteful and slovenly. The fires of ambition easily can be kindled. The lives of those who were born in poverty and who, through sturdy thrift, developed into a life of power, wealth and good deeds can be held up as examples.

Let us bear in mind that a little thrift taught to the child will yield substantial returns in future success, happiness and prosperity. Those who practice thrift are not influenced as much by the forces of heredity as by the conditions of childhood environment. Men and women who are thriftless have generally been so because, during the days of their early youth, they were given no guidance in matters of personal economy. As a result they learned to yield to thoughtless impulses, and, as they grew older, these deteriorating practices became more and more

fixed parts of their lives. A little thought as to the value of thrift imparted to them in childhood would have proven a tremendous advantage through all the future years.

During the war the schools of America became mighty forums for the teaching of patriotic thrift. This school year opens without the war impulse, but children should, with equal ardor and sincerity, learn the patriotism of peace thrift.

The school savings bank is a splendid institution for the development of thrift. It has been given insufficient encouragement. The latest statistics were compiled at the end of the school year ended in June, 1918. These showed 210,530 depositors in the schools of thirty states with total deposits to that date of \$1,305,018.55. Since that time no statistics have been taken, but organized efforts are now being made to stimulate school savings bank activities. The American Society for Thrift is taking the lead in this work. Instructions as to the best methods in installing school savings banks, with blanks for reports, will be sent without charge to any one who writes to the Society's office, 220 West 42nd Street, New York City.

Every school in America should have a savings bank. Every child in the nation should be a depositor. The children will be found in a receptive mood. The school savings banks in the United States have not attained widest success because of public indifference. As a result, the nation has lost the value of a tremendous asset, but these mistakes of the past should serve as lessons in the future. The widespread inauguration of school savings banks in this country will accomplish much for the future individual happiness of our citizens and the economic stability of the nation.

PROFIT-SHARING ON FAIR BASIS TO STOP UNREST

George W. Perkins Urges It As Only Solution To Present Problem.

DENOUNCES BONUS SYSTEM AS SOURCE OF TROUBLE

Says Too Many Cases Where Capital Takes Exorbitant Reward.

New York, Sept. 11.—Profit sharing on a frank and fair basis was declared to be the only solution of the present industrial unrest in a speech delivered at the annual meeting of the National Civic Federation here today by George W. Perkins.

Mr. Perkins said he was convinced that labor was entirely willing to accept the "fair reward and proper protection" but that there were too many instances in which capital had demanded "improper protection and had taken exorbitant reward."

At the same time Mr. Perkins denounced bonus systems as doing more harm than good and as stirring up trouble rather than alleviating it. The giving of bonuses, he claimed, caused employees to feel that the employers were making vast sums of money out of which a sop was thrown to them to bribe them into feeling kindly disposed or to ward off a demand for a general increase in wages.

As an alternative Mr. Perkins proposed a definite detailed scheme of profit sharing which he said had been adopted by some companies with which he was connected and had proved most successful. He described this plan as follows:

"First, Every business has, first of all, to earn operating expenses, depreciation, and fair returns on honest capitalization.

"Second, I believe that every business should consider that the compensation paid employees is for the purpose of earning a sum of money sufficient to pay the above-mentioned items.

"Third, I believe that any profits over and above such sum should, on some percentage basis, be divided between the capital used in the business and the employees engaged in the business.

"Fourth, I believe that in neither case should these profits be immediately withdrawn from the business; that they should be left in the business for a reasonable length of time, to protect and increase its financial strength and safety; that, in the case of capital, its share of these profits should be carried to surplus; that, in the case of employees, their share of these profits should be distributed to them in some form of security representing an interest in the business, and that each employee should be required to hold such security for a reasonable length of time, say three to five years.

"Fifth, I believe that the employees' share of these profits should be allotted to them as nearly as possible on the basis of the compensation they receive. Up to date, this has proved to be the best method."

The employer who objects to profit-sharing because he is making so much money "that he is afraid to let even his own employees know how much money he is making" was declared by the speaker to be "more than any other, responsible for the serious differences of day existing between capital and labor for, with the growing intelligence of the masses, how can he expect such a situation to continue? Every year, yes, every day, it becomes clearer and clearer that such a condition will no longer be tolerated and must speedily pass away. Would it not be better for him to use some intelligent foresight and

meet what clearly are to be the immediate future demands of public opinion?"

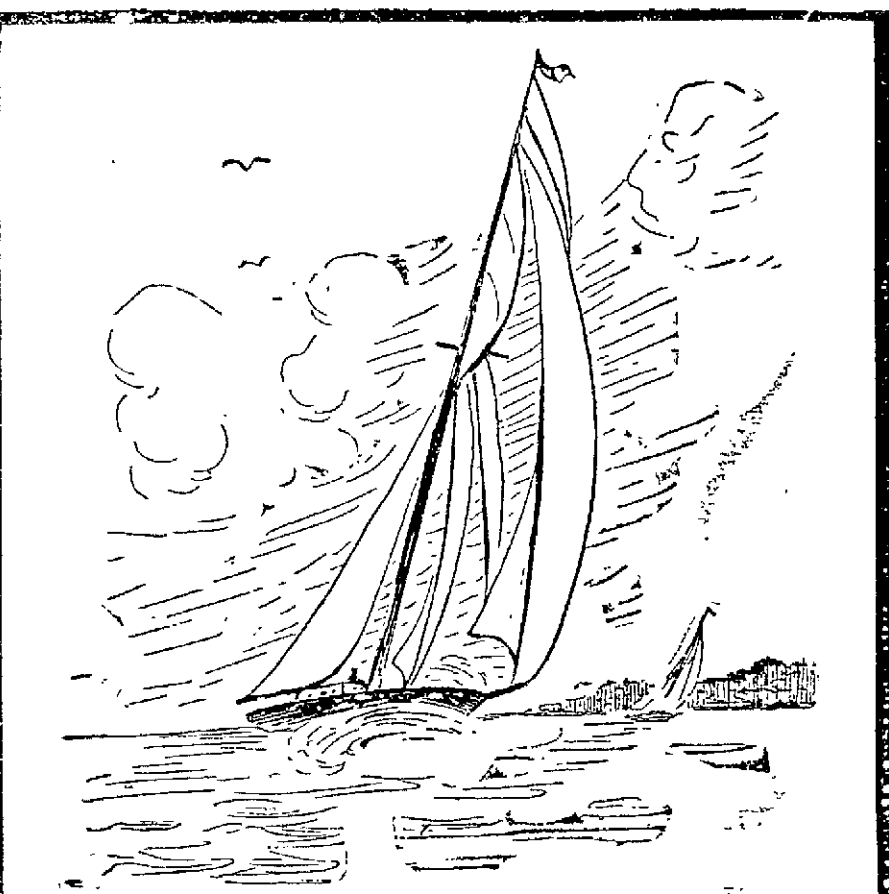

Mr. Perkins said that the history of the relations between labor and capital could be traced through the terms successively used to denote the man who worked for a wage and the man who owned the wage. First it was "owner and slave," then it became "master and man," today it is employer and employee and tomorrow, Mr. Perkins declared, he believed it must be "partners." In conclusion he said:

"Since the beginning of time no country has ever had such an opportunity to extend its trade, increase its prosperity and better the material condition of every one of its people as has the United States of America at this hour.

The only factor missing is that of close co-operation here at home among ourselves. It seems inconceivable that we will fail to realize where our weakness lies and fail to adopt the one and only remedy for it. In the strenuous competition with the rest of the world that this country is on the eve of facing, could we have a stronger weapon than complete co-operation between capital and labor at home?"

Milady's Boudoir

Beauty Making Aids.

A toilet liquid much used by the ladies of olden times, and often called Angel Water, is much esteemed for its beauty value. It can be made at home in the following way: Rose water, five ounces, orange flower water five ounces, myrtle water two and a half ounces, essence of ambergris one drachm and essence of musk one-half drachm.

Mingle the various substances together and agitate the bottle for several hours, continuing the shaking during the day quite frequently for several weeks. Keep the bottle tightly corked and in a warm, dark place. Let it stand for two weeks or longer, then decant the liquid, and if it is not perfectly clear, filter it. Properly made it should be almost colorless.

There are many uses for bay rum, one that it is good for massaging the scalp after the shampoo when one is likely to catch cold, or when the hair needs some little dressing to keep it in order. But, if it is used too often or too lavishly on the hair it will dry out the locks. Bay rum of a very good sort is reasonable at any drug store, but if one is clever at turning out beauty preparations, this formula should give you about as pure a concoction as you could wish for.

Use oil of bay 240 grains, oil of orange 15 grains, oil of pigmenta 16 grains, alcohol one quart and water 25 fluid ounces. Dissolve the oils in the alcohol and add the water. Then stir in the liquid about two ounces of precipitated phosphate of lime, and filter. This will improve with age.

Our Boys and Girls

Children have a sweet tooth and it should be catered to as much as possible, as sweets are necessary to a growing child. Good little brown cakes are made as follows: Cream together one-half a cup of butter and one cup of sugar. Add one-fourth of a cup of the yolks of three eggs and half a cup of milk and water. Sift with one and a half tablespoons of cinnamon and one-fourth of a teaspoon of ground cloves. Stir into the other ingredients and, lastly, add the egg whites, beaten stiff. Fill round gem pans half full of the mixture and bake. When cold frost with boiled frosting and paint Brownie faces on each with melted chocolate.

For peppermints use one cup of granulated sugar and two tablespoons of boiling water. Cook three minutes after it begins to boil. As soon as it is clear looking take off the stove and add one heaping teaspoon of confectionary sugar and peppermint. Beat as well and drop on a marble slab or on paraffin paper. Chocolates are made the same as peppermints, except add a small piece of grated chocolate with the sugar. These are just as good as you can buy, are pure and not expensive.

Every Day Etiquette

"When I give a party for my daughter should I see that the girls are escorted home by some of the boys to see that they arrive safely?" inquired Mrs. Matron.

"The boys, most certainly, should see that the girls reach home safely, and the hostess should see to it that each girl is provided with an escort. If one girl is not escorted, her privilege and ask one of the boys to act as escort," answered her society friend.

M'DANIEL TEAM IS CALLED FOR FIRST PRACTICE

All Old Players As Well As New Talent Ordered To Report Sunday Morning For Drill.

The first practice of the 1919 M. Daniel football team will be held Sunday morning, according to announcement made this morning by C. E. M. Daniel, backer of the team. He has issued a call for all former players as well as any new talent which desires a tryout, to report at the M. Daniel place Sunday morning at 9:30 o'clock. The list of names in the call includes these old time well known stars: Williams, Jenkins, Smeltz, Mike and Hank Kiley, Sullivan, Gilmore, Davis, McCarthy, Bowser, E. and H. Brenner, Clayton, Hager, Noon Jackson, Taylor, Nehls, Walters, Sullivan, V. Wallace, Miller, Thompson, John P. Denison, Rube Jones, Ed Cough, Rhoades, Schimpf, O'Hara, Dunn, Warner and Moore.

A contract has been closed with the Pun Handle team of Columbus for a game at Moundbuilders park September 25, though the season will open Sunday, Sept. 21, with a game with Cambridge or Zanesville. Negotiations with these two teams are pending and one or the other will appear.

The use of Moundbuilders park for the season has been given to Baldwin by the agricultural society for football games. M. Daniel promises some real football this fall.

THIEVES STEAL SECOND CAR FROM CAMPBELL

For the second time in a year, thieves have made way with automobiles belonging to Robert Campbell, living on the National Pike.

Last night someone entered the garage at his home and took a Buick car, bearing the license number 206,398. A year ago, September 6, 1918, Mr. Campbell had an Overland car stolen from in front of the Auditorium theatre.

Liberty Bonds.
New York, Sept. 11.—Final prices on Liberty bonds today were: 3 1/2s \$99.98; first 4s \$94.84; second 4s \$93.08; first 4 1/4s \$95.30; second 4 1/4s \$93.28; third 4 1/4s \$95.25; fourth 4 1/4s \$93.34. Victory 3 3/4s \$96.64; Victory 4 4 1/4s \$99.70.

Chicago Grain.
Chicago, Sept. 11.—Closing—Corn: September \$1.52; December \$1.25 1/2. Oats: September 68 1/2; December 71 1/2. Pork: September \$47; October \$36.10. Lard: October \$25.00; January \$22.75. Ribs: October \$20.00; January \$19.17.

Chicago Grain Review.
Chicago, Sept. 11.—Sharply lower prices in the corn market today resulted largely from the strike ultimatum issued by the steel workers. Opening prices, which ranged from 3-4 to 2-3-4 lower, with September \$1.53 1/2@1.54 and December \$1.25 1/2@1.27, were followed by a decided additional setback.

Oats gave way with corn. After opening from a quarter to 1-1-8 down, including December 71 1/2 to 71 7/8, the market continued to decline.

Provisions were depressed by the downturns in the value of hogs and grain. Buyers were scarce.

Pittsburgh Live Stock.
Pittsburgh, Sept. 11.—Hogs: receipts 2300; lower. Heavy, \$17@17.50; light Yorkers, \$17.50@18.25; light Yorkers \$16.50@17.00; pigs, \$16@16.50.

Sheep and lambs: receipts 300; steady. Top sheep, \$11.25; top lambs, \$17. Calves: receipts 100; steady; top \$22.50.

Wall Street.
New York, Sept. 11.—Stocks broke sharply at the opening of today's session, reactions of 2 to 11 points resulting from the call of the steel leaders for a general strike on September 22.

Offerings of United States Steel were so extensive that first quotations were not available until some 15 minutes after the market opened. Steel's initial and lowest quotation of 101 represented an extreme reversal of virtually 5 points from Tuesday's final prices. Crucible fell 11 points but soon made up half its decline. Bethlehem lost 8 and Inland 4. Among the losers, rails, motors and oils, prices were lower by 2 to 6 points.

Prices rebounded with surprising ease after the first setback, recoveries being effected on relatively moderate purchases. Foremost features of the rally including leading steels, equipments and oils, some of which soon made full recovery, with United States Steel regaining more than its loss. Further improvement was registered with the approach of noon, the movement embracing shippings and other repre-

Skin trouble costs many a man his job

No matter how efficient a man may be, if he has an ugly skin-eruption, there are positions in which he cannot be tolerated. He may know that it is not in the least contagious, but other people are afraid, they avoid him, and he must make way for a man with a clear, healthy skin. Why run this risk, when

Unable to Sleep Nights Because of Gas Pains

Relieved by Dr. Parker's Treatment for Indigestion and Constipation.

"In the fall of 1918," says Chas. Eiker, 835 Food Ave., Guilford, O., "I had a bad case of influenza that affected my digestive organs. Food soured on my stomach causing a gassy condition that made me short of breath and caused smothering spells. Some nights I would have to arise from my bed to get relief. After taking Dr. Parker's Treatment for Indigestion and Constipation I have been relieved from all distress, have a good appetite, and eat any food. I can't say too much in favor of this treatment."

You, too, will get relief from this remarkable treatment. It has been used for 30 years and is guaranteed to help you. Sold and recommended by your druggist.

IMPORTED FOODS TO BE PLENTIFUL IN GREAT BRITAIN

Government Food Control To Be Continued, So All Can Get Share of Short Domestic Supply.

York, Eng., Aug. 25 (By Mail).—Abundance of imported meat, bacon, cheese, margarine, rice, tea, sugar and apples is assured the people of Great Britain the coming winter by the authorities, but home-grown products such as milk, meat, butter and dried fruits, it is said, will be scarce and costly.

Meanwhile the government food control will continue in order that rich and poor alike may share in the available supplies. Nothing like the hardships endured during the last two years of the war is anticipated because the government supervision and distribution will not be so rigorous as when the army had its "back to the wall."

The expense of feeding and fattening cattle is the factor that will make home-grown meat scarce. Hay and oat crops are abnormally short, and root fields in some parts of the country are almost a failure. "Cattle cake," which will have to be used more freely, is more expensive than last year.

The same considerations apply to milk. The price for August was fixed at 63 cents per gallon to the dairyman, and for September at 75 cents. Last winter it was 20 cents a quart, but higher prices are expected the coming winter.

There is plenty of tea in the country, but transportation systems are so out of joint, dealers say, it will cost more to handle and distribute it. Bacon prices are rising in America, which makes the British price. Port and dock delays, due to strikes and the general apathy of labor, contribute to higher prices.

Nobody is worrying about sugar except as to price. The sugar commission has been very active in the general market, and has obtained enough to last the country until the end of the year at prices which, it is declared, are a little below the average of Europe, but, of course, much higher than the American price. If the commission had to go into the market now it would be compelled to pay as much for sugar as the present retail price, and as it will likely have to do that early next year the consumer expects to pay more.

Apples are high and scarce, the controlled price being 18 cents a pound. It is expected, however, that the fine crop here in England will serve to reduce this price materially before the winter comes.

Bakers and the government expect an increase in the cost of bread. There are abundant wheat supplies in Australia, and the Argentine, but the scarcity of shipping makes immediate delivery impossible. So England must depend on the United States and Canada which, the authorities, say means costlier loaves.

LEGAL NOTICE

Jennie M. Morken, residing at Yakima, Washington, is hereby notified that on February 24th, 1919, William Target and Edward Target filed their petition in the Common Pleas Court, Licking County, Ohio, in case No. 19550 against the above named parties and others, praying for the partition of the following described real estate in the County of Licking, State of Ohio, and City of Newark, and more particularly described as follows:

First Parcel: Being seven feet off the south side of lot number nineteen hundred and thirty eight (1938) and thirty seven (37) feet off the north side of lot number nineteen hundred and

forty one (1941), in George W. Penny's Addition to said City of Newark, Ohio, according to a plat thereof recorded in Vol. 2 page 229 of the Records of Plats of the Recorder's Office of said county.

Second Parcel: Being situate in the County of Licking, State of Ohio and in the City of Newark, and being all of lot number twenty seven hundred and ninety eight (2798) as the same is described and designated on the Plat of Charles G. Penny's Addition to said city which part of said subdivision is recorded in Vol. 2 Plats 454, reference to which is made.

That said plaintiffs, and said defendant are each entitled to an undivided one fourth interest in said lands and

plaintiffs desire to have their interest set off to them in severalty, or if that cannot be done without manifest injury that such proceedings be had as are authorized by law.

Said parties are required to answer on or before the 1st day of November, 1919.

The Broadest Guarantee ever given a FARM TRACTOR

"The Master Drive 3-4 Plow Farm Tractor of America"

ILLINOIS SUPER-DRIVE

The Illinois Super-Drive Tractor is Guaranteed to Give You Performance in Accordance With Our Guarantee or We Will Refund the Full Purchase Price

THE unequalled, remarkable satisfaction that all Illinois Super-Drive Tractors have given their owners, enables us to give you an absolute unconditional guarantee, that when you put an Illinois Super-Drive Tractor on your farm it must give you performance in accordance with all terms of our broad guarantee or we will refund the full purchase price.

The Illinois Super-Drive Tractor is sure to give you complete satisfaction, because it is dependably built; its driving principle delivers 20% more of the engine power to the draw bar than any other driving principle in tractor use. The Illinois is completely equipped with a system for absorbing shocks. Its perfect kerosene burning motor produces great power at low fuel cost. It will pull four plows under most conditions, run a thrasher up to 28 inches and has great reserve power.

All gears and bearings are enclosed and constantly run in a bath of oil, therefore dirt, dust, and grit cannot reach the mechanism and cause destruction and loss of power. Here is the Guaranteed Tractor that you can put on your farm without taking chances of having your farm work delayed at a critical time.

ILLINOIS TRACTOR COMPANY, Manufacturers, Bloomington, Ill., U.S.A.

ASSASSINATION COSTA RICAN IS STILL MYSTERY

Slayer Stepped From Behind Tree and Fired Point Blank Into Official's Face.

San Jose, Costa Rica, Aug. 23.—(By Mail)—Assassination of Joaquin Tinoco, minister of war, and brother of former President Federico Tinoco, on August 9 last, is still an unsolved mystery with indications that the slayer may never be brought to answer for his crime. The fortnight which has elapsed since the tragedy has brought out a number of interesting facts in connection with it which never before have been told.

Joaquin was 39 years old, one of the handsomest men in Costa Rica, a quick shooter and courageous as a lion. He was tall and of athletic build, fond of horses, and a member of one of the most distinguished families. He rarely went unarmed and had fought a number of duels. The widow of one of his adversaries, a lawyer he killed in a revolver fight a few years ago, sought to avenge her husband and fired five shots at close range at Tinoco, but the latter survived his wounds.

When on January 27, 1917, his brother Federico, who was minister of war in the cabinet of President Alfredo Gonzalez, deposed the latter and became head of the government. Joaquin was given the war portfolio and thereupon, it is said, became the real president of Costa Rica. For two years previously Joaquin had been fighting revolutionists and personal enemies and when he became minister of war he became still more energetic and aggressive. It has been said that Joaquin on the day of his death had more enemies than a popular motion picture actress in the United States had admirers.

On the day before the assassination Joaquin went before the Costa Rican congress and asked to be relieved as vice president, a position he held by virtue of his cabinet post. At the same time his brother, the president, asked official permission to leave the country because of "ill health."

Both requests were granted and the two Tinocos were preparing to depart when Joaquin was shot down.

A few months before he met his death Joaquin began to take a strange interest in spiritualism. Frequently he went to a small village called Guadalupe where he consulted a woman medium, and after his last visit seemed disturbed by what she had told him. That same afternoon he returned home and telephoned for his car but it was out of order and he decided to go for a walk. A block from his residence a man stepped from behind a tree and fired at Tinoco point blank. The shot pierced his eye, causing almost instant death. Notwithstanding the suddenness of the attack, in the fraction of the second he remained alive, Joaquin had drawn his own revolver. The weapon was found in his clenched hand.

On the day after the tragedy Joaquin was buried with military honors and 48 hours later the remaining member of the Tinoco family, including the former president, left here for Port Limon in special trains where they sailed for Kingston, Jamaica, and thence intend to go to England.

The new president, General Juan Bautista Quirós, formerly minister of the Banco Internacional de Costa Rica, a government institution, and generally regarded as a conservative Costa Rican, is pledged to restore order after two years of turmoil, and the leakage of public funds and, after a few months of reconstruction, bring about free elections.

ONLY INCREASED PRODUCTION WILL PREVENT CHAOS

Herbert Hoover Says Loss of Life On Scale Hitherto Undreamed Of Is Possible.

London, Aug. 24.—(Correspondence of the Associated Press)—Unless European productivity can be rapidly increased there can be nothing but political, moral and economic chaos finally interpreting itself in loss of life on a scale hitherto undreamed of, says Herbert Hoover, head of the Inter-Allied Relief Commission in an analysis of the economic situation in Europe, just published in the British National Food Journal.

"The entire surplus productivity of the western hemisphere is totally incapable of meeting the present deficiency in European production if it is long continued," the analysis asserts. "Nor could credits be mobilized for this purpose for more than a short period because all credits must necessarily be simply an advance against the return of commodities in exchange and credits will break down the instant that the return of commodities becomes improbable. Further, if such credits be obtained for more than temporary purposes it would result in economic slavery of Europe to the western hemisphere and the ultimate would be war again."

Mr. Hoover points out this solution of the European economic problem: "A vigorous realization of the actual situation in each country of Europe and a resolute statesmanship based on such a realization—the populations of Europe must be brought to a realization that productivity must be instantly increased."

In the present-day European ferment, Mr. Hoover says, "every economic patent medicine, be it socialism or communism, which has claimed to speak for the downtrodden—to alone bespeak human sympathy."

Experimentation in varying forms of these political teachings, socialism and communism—has so far, in every case, resulted in reduced production, the food controller says.

Europe's threatened coal famine, the analysis says, is due "in the greatest degree to the human factor of the limitation of effort."

Western assistance in the form of its devotion of surplus productivity to Europe's needs, "is a service that the western hemisphere must approach with a high sense of human duty and sympathy," concludes Mr. Hoover. "The economic burden on the west should not last more than a year and can be carried and will be repaid. To effect these results, the resources of the Western hemisphere and of Europe must be mobilized."

USES CLASSIFIED ADS TO GET CRIME EVIDENCE

Honolulu, T. H., Aug. 6.—(By Mail)—Newspaper advertising has found a new field in Honolulu. Paid publicity has been recruited as an aid to the force of lawlessness. Judge William H. Iken, who recently took office as city and county attorney, is buying space in the local dailies to further his campaign against gambling.

The following classified advertisement has appeared: "WANTED—Any information against professional gamblers, owners of gambling joints and cheat bankers. Such information will be treated confidentially and, if reliable, will be paid for. Section 4182, R. L. 1915, provides that persons participating in gambling games cannot be prosecuted if used as witnesses. Wm. H. Iken, city and county attorney." Judge Iken became a candidate for city and county attorney while on the federal bench here and made professional gambling the issue of the campaign. Orientals, it is said, are very fond of gambling and so conduct their games that detection and successful prosecution is difficult.

STEAL WILLIE'S CIGARET CASES FROM CASTLE

Revolution and Riots in Germany Furnish Opportunity For Theft of Hohenzollern's Art Treasures.

Berlin, Aug. 20.—(By Mail)—Thefts from the castles of former Emperor William and the Crown Prince Frederick, not only during the revolution but during the January and March riots of the Spartacists and Communists, are still engaging the attention of the police. Slowly the authorities have been able to trace some of the valuables that were filched by the sailors who occupied the ex-emperor's place and that of his son for a time but an immense

amount has been taken from Berlin by underground methods and may never be recovered.

One of the most important "finds" can be laid to a Hamburg professor. A marine had stolen two Cranach portraits from the imperial castle, failed to get rid of them in Berlin and finally sold them to a questionable dealer in Hamburg. The dealer approached the professor, who recognized the canvases, gave a check but stopped payment, and notified the finance ministry. The paintings were thereupon confiscated.

There are many more not yet recovered, however, including a little male figure in wood dating from 1585, a Katharina von Bora by an unknown artist, also of wood, a "warrior with ladies" by Palamedes, and a score of other carvings and paintings, principally by German artists, from the sixteenth and seventeenth centuries.

From the palace of Wilhelm I there have been stolen figures in bronze and ivory, a bust of Queen Louise, vases, letter containers, silver trays, Japanese silk portiers and curtains, decorative weapons, medallions, watches and mirrors.

The Crown Princess's residence suffered similarly. Cigarette cases of which the crown prince had a wonderful collection are missing, a jeweled collar, writing material, woolen material, clocks, a watch set with diamonds and sapphires, two automobiles, five hunting guns and a revolver.

LA-MAY FACE POWDER
STAYS ON BETTER
THAN ANY OTHER

Now you can use a pure face powder that beautifies your complexion wonderfully and is guaranteed not to injure the most delicate baby skin. And it really stays on better than any other face powder. It does not contain white lead or starch. Rice powder (Poudre de Riz) to make it stick. White lead poisons the skin and rice powder turns into a gluey paste that encourages enlarged pores, blackheads and rice powder pimples. The specialist who makes this improved powder uses a medicinal ingredient that doctors use to heal the skin. In fact, this new powder helps to prevent and reduce enlarged pores and pimples. It is also astringent, discouraging flabbiness, crows' feet and wrinkles. Because it is pure and because

it stays on so well this La-may powder (French, Poudre L'Ame) is now used by over a million American women. The large size is only fifty cents and the trial size is twenty-five cents. Remember, La-may is guaranteed absolutely pure. Five thousand dollars reward is offered any chemist who finds it contains any white lead or rice powder. Refuse substitutes. Your common sense will tell you that when you are offered a substitute it is sure to be a demonstrator trying to sell an inferior powder that pays a big commission. When you use this absolutely pure La-may and see how splendidly it beautifies your complexion, you will understand why it so quickly became the most popular beauty powder sold in New York. Save this notice.

PERSHING'S BIRTHPLACE TO HONOR COMMANDER-IN-CHIEF OF ARMIES

Laclede, Mo., Sept. 11.—General Pershing is coming back to his boyhood home here.

He will return a full-fledged general, the hero of America, but to the boyhood companions with whom he stole apples, and played at the old swimming hole, it will be the "Johnny" Pershing who spent his early life here before going away to West Point to embark on a military career.

A telegram received by Mayor Edmund E. Allen promises a visit by the General shortly after his arrival in the United States.

Some time ago when Laclede learned that General Pershing was returning from Europe the following cablegram was despatched to him by Mayor Allen: "Laclede, your old home, your boyhood friends and Linn County are calling you. When may we expect you home?"

General Pershing cabled in reply: "I have heard the call. Will be there soon after my arrival in the United States. Can't give you definite date now but will let you know later."

Laclede will pay tribute to General Pershing on his arrival, not with the pomp and ceremony that marked his reception in European capitals, but with a "good old fashioned Missouri homecoming," according to the committee arranging for his reception.

Plans for the General's entertainment include reunions with old schoolmates and chums, trips to the old swimming hole on Muddy Creek and to the old Pershing farm.

The homecoming will also mark a reunion of the Pershing family. James Pershing, of Chicago, the General's brother, and Miss May Pershing and

Mrs. Bessie Butler, of Lincoln, Neb., his two sisters, will gather at the former Pershing home during the General's stay.

The reception will not be without a military side. Decorated heroes of Missouri will form an honor guard. Adjutant General H. C. Clark, of Missouri, will have charge of the military reception.

Among old acquaintances who will greet General Pershing are "Aunt" Susan Hewitt, who made the plan for him when he romped barefoot around the countryside and "Aunt" Louisa Warren, who claims to have been present when the future military leader was born in a railroad section house several miles from her. Both are negroes.

Recent census figures show that in New York City there are 2500 more women than men.

THIS WILL ASTONISH NEWARK PEOPLE

The quick action of simple witch-hazel, hyacinths, camphor, etc., as mixed in Lavoptik eye wash, will surprise Newark people. One girl with weak, strained eyes was helped by a single application. Her mother could hardly sew or read because of eye pains. In one week she too was benefited. We guarantee a small bottle of Lavoptik to help ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE. R. F. Collins, druggist.

MERCIER IS HERO
OF ALL BELGIUM
DEFIED GERMANS

Hated Prefate of Martyred
nation Refused Hun Order
to Retract Famous
Pastorate Letter.

New York, Sept. 11.—Belgium's beloved spiritual prince, guardian of the welfare of 2,500,000 Roman Catholics in the little kingdom whose first fierce resistance stayed the German avalanche. Cardinal Mercier, who was born on November 22, 1851, in Braine l'Alleud, a village only a few miles from famous Waterloo.

Typical of the heroism of King Albert's countrymen, this physically frail but intellectually powerful prelate of the church stirred the whole world to admiration of his courage when, on the first Christmas in 1914, with German troops everywhere in Belgium, he issued his famous pastoral letter, denouncing the invader and urging his people to resist in these words:

"Germany has violated her oath. We can neither number our dead nor compute the measure of our ruins. Occupied provinces are not conquered provinces. The authority of the invader is no lawful authority. Therefore, in soul and in conscience you owe it neither respect, attachment nor obedience."

Later, in protesting against the deportation of the Belgians for forced labor, he threatened Germany with "the reprobation of the civilized world, the judgment of history and the chastisement of God."

Fifteen thousand copies of the cardinal's letters were seized and destroyed, the printer was arrested and fined, and the brave priest was kept a prisoner in his palace by order of General von Bissing "until a retraction of the pastoral had been signed." The cardinal not only refused to retract his statements but became even more defiant.

He was given his liberty, finally, and continued to use his voice and pen against the "mailed fist" in crystallizing world opinion against the central powers. All during the war, however, he was subjected to petty persecutions and his secretaries and other aides were thrown into jail. He went through the bombardments of Antwerp and Malines and braved the perils of the common soldier.

Cardinal Mercier was created and proclaimed a member of the Sacred College on April 15, 1907. Before that he was professor in the University of Louvain, which was repeatedly pillaged and desecrated in the war. The prelate's distinguished service for Belgium throughout the war has been told in frequent news dispatches. Less is publicly known of his early record as a churchman.

The cardinal studied at St. Rombout's College, Malines, and the diocesan seminary in the same place. He was ordained to the priesthood April 4, 1874, entered the seminary at Malines in 1877 as a professor of philosophy after taking a course in theology at the University of Louvain and five years later was called to the university as professor of Thomistic or Scholastic philosophy. In 1886, Pope Leo XIII. appointed him a domestic prelate, with the title of monsignor.

He comes of a distinguished religious family, other members of which have won honors in the church. One uncle, the Rt. Rev. Adrian Croquet, born in 1818, was a pioneer missionary among the Indians for 35 years in the Canadian northwest. He died in Belgium in 1902, and it is the cardinal's wish to visit the scene of his uncle's labors.

Cardinal Mercier's visit to the United States is largely the result of importunities from all sections of the country. As President Wilson is about from Washington the cardinal will pay his first respects to Cardinal Gibbons in Baltimore and visit the White House later in his tour. According to present plans the notable Belgian prelate's itinerary will include, besides the cities mentioned, Philadelphia, Pittsburgh, Scranton, Albany, Boston, Providence, Hartford, Springfield, Mass., Detroit, Cincinnati, St. Louis and Chicago.

GRANGE LEADERS
BLAME LABOR
FOR HIGH PRICES

Say Urban Workers Have
Brought About Conditions
Which Cause High
Prices of Commodities.

Albany, N. Y., Sept. 9.—Officials of the New York State Grange, representing 125 farmers in a statement issued here today placing responsibility for the high cost of living upon labor, declared that "an economic adjustment must be made if the world is to be fed and agriculture preserved." The statement of all workers except those engaged in agricultural pursuits is made by Sherman J. Powell and W. N. Giles, master and secretary, respectively, of the grange, who allege that strikes have been an important factor in raising the price of food, clothing and shelter.

"The first factory in a happy life is three meals every day," says the statement. "The next is adequate clothing and housing to keep the body warm. The war has only hastened what every thinking agriculturist has seen for years was surely coming. Rural workers have not received the support and encouragement which the urban workers so easily obtained in the form of better schools, roads, churches, houses, shorter hours and higher wages for work under more favorable conditions. This had the result of steadily driving from the country its population to an alarming degree. Now, instead of going into a study of our situation and developing a remedy, our laboring brothers of the city purport to remedy our trouble by arbitrary measures without any real knowledge of the cost of producing the necessities of life."

"No class of Americans with red blood in their veins will stand being told they must labor long hours at inadequate pay in order that another class may have shorter hours and higher wages. Even the faithful farmer, who has always produced sufficient food for all, feels he has about reached the limit, and that no laboring man of the city should find fault if he applies the same rule that his city brother has taught him."

"Why is it that over half our farms have mortgages on them, and that two-thirds are worked by renters? When a class of men demand a higher wage although their labor does not earn it,

some one else must pay, and they become dishonest profiteers.

"We here challenge the city laborer to a cost accounting that all the world may see who extracts his wages. Let there be an authoritative cost accounting of farm products and a wage scale for labor the base of which shall be its earning power."

"When wheat was \$1 a bushel, one bushel paid for a day's work. Wheat, by government fiat, is now \$2.26 a bushel, and it now requires from two to three bushels to pay labor for one day's work. Again when wool was 30 cents a pound, allowing four pounds for a suit of clothes, the farmer received for the product \$1.20. Figuring the cost of a suit of clothes at \$20, 13 days labor at \$1.50 per day paid for a suit. Today wool is 65 cents a pound, four pounds bringing \$2.60, the amount received by the farmer. The same suit of clothing is now \$40, and the laborer can obtain a suit by eight days of labor at \$5 per day. These comparisons will hold good with every farm product."

ENGLAND ACTS TO
HELP INDUSTRY

New Finance Act Will Give
Special Preference to Colonial and Home Products.

London, Aug. 25.—(By Mail)—The finance act, which more than any other recent legislation echoes the popular cry of "Britain for the Britons," through the performance which is to be given, materials produced within the empire, is to be tried immediately through two orders issued by the board of trade.

One order provides that preference shall be given refined sugar, molasses and tobacco imported from the colonies, and the other sets the standard of "imperial origin" by declaring that no manufactures shall be considered of British or imperial origin unless 25 per cent of the total value is the result of British or imperial labor.

For the purpose of the regulations governing the second order it is provided that the total value of an article shall be its cost to the manufacturer at the factory and shall include the value of containers and other forms of interior packing ordinarily sold with the article at retail, but shall not include the manufacturer's or exporter's profit or the cost of exterior packing, carriage to port and other charges incidental to the goods subsequent to their manufacture.

In calculating the proportion which is the result of labor within the empire there may be included the cost of the manufacturer including wages, proportion of fuel, supervision and other factory charges and the cost of labor for packing for retail sale.

GYPSIES PLAN TO
ORGANIZE SACRED
CAMP ON PACIFIC

Authorities Believe 15,000
Are Headed Toward the
Western Coast To Settle
In Permanent Camp.

San Francisco, Sept. 11.—Romany tribes, commonly known as "gypsies," are traveling toward California from all parts of the United States with the avowed purpose of establishing a "sacred camp," or permanent sacred encampment at Emeryville, across the bay from San Francisco, officials of east bay cities believe.

In possession of tribal leaders, who came to the coast to attend the recent marriage of George Adams, head of one tribe, and "Gypsy" Mary, who said she was an Egyptian princess, were found telegrams from headquarters of six tribes scattered throughout the country. These contained but two words: "Amen avasa," "we come." They were said to be replies to a country-wide call for the gathering of the gypsy clans.

Not all of the gypsies are included in the movement. The response is confined to the more religious element who still cling to the tradition that one day they would take the road to the land of promise by the "great water," the ultimate home of the wanderers on the Pacific coast.

Fifteen thousand men and women and their boys and girls are estimated to be on their way here. Lester Amenda, head of a Greek gypsy band, and others have made inquiries as to state laws on municipal organization and the residents of Emeryville are said to be apprehensive that the gypsies will have sufficient voting power to take over control of the town, now a city of 2700 population.

The bands are reported to have adopted a central tribal flag designed at Chicago by one of their leaders. It is a green banner bearing the legend "Borodiro Stives" "A Great People." Involved in the migration to this coast are gypsies of the Turkish, Romanian, Hungarian, German, Moravian, Lithuanian, Russian, Greek, Bohemian, Italian and Spanish tribes.

CLEM VIEWS PARADE FROM SEAT IN STAND

The State Journal, in its parade notes
 has the following paragraphs of inter-
 est to Newark people.
 "Johnny" Clem of Newark joined out
 with the "Yanks" in the "1" as a drum-
 mer boy at the age of 10.
 Yesterday he watched the parade of
 his fellow fighters from the reviewing
 stand.

Before his retirement Clem, a West
 Point graduate, attained the rank of
 quartermaster general. He once was
 stationed at Columbus barracks, later
 at the Presidio, San Francisco.
 At the head of the Ohio delegation,
 which took 25 minutes to pass the re-
 viewing stand, was Rev. H. C. Martindale,
 Cleveland, department commander.
 He rode in an automobile.
 Members of the Old Guard, Columbus
 and Newark, were applauded and cheer-
 ed as they trudged by, each carrying
 his old mustet.

HEEL IS CRUSHED IN AUTOMOBILE ACCIDENT

Lisle Sanderson, 12, son of Mrs. Kate
 Sanderson of 137 South Pine street,
 had his heel nearly torn off when he
 was caught between the curbing in
 West Main street and an automobile
 Wednesday night.
 The boy was riding on the handle
 bar of a bicycle with another lad re-
 turning from a picture show about 10
 o'clock. In West Main street near the
 Overland garage, a machine was driven
 out of the alley by David Hill. The
 machine and the bicycle collided and
 the Sanderson boy was thrown off and
 caught between the machine and curb-
 ing.
 Mr. Hill picked him up, taking him
 to the office of Dr. Cosper,
 where it was found that the heel had
 nearly been severed and that the ligaments
 and tendons were cut. Dr.
 Harry Hunt was called, to administer
 an anesthetic, and the injury was
 assessed. The boy was removed to his
 home in the ambulance.

WITNESSES ABSENT CASE IS CONTINUED

The case of Ohio vs. Mrs. Lola Patterson
 that was to have been heard Wed-
 nesday in Justice Horton's court, has
 been continued to Saturday at 1
 o'clock owing to the absence of some
 state witnesses.
 Kolia Craig Patterson, under bond
 on an assault charge in the same case is
 still in the City hospital where he was
 operated upon for appendicitis. His con-
 dition is satisfactory.

ENGINEER IS INJURED IN FALL WEDNESDAY

Charles Baguley, a retired E. and O.
 engineer, was injured in a fall Wednes-
 day afternoon at the E. and O. cross-
 ing in East Main street. He was re-
 turning from a trip to Glenford and was
 carrying a large basket of butter and
 eggs, and stopped at the watch house
 to wait for a car. In stepping from the
 watch house platform to the street he
 made a mis step and fell, injuring his
 head and hip. Bradley's ambulance re-
 moved him to his home in North Cedar
 street where Dr. R. G. Downs attended
 him. It can not be determined yet
 whether the hip is broken or not. Mr.
 Baguley has just completed preparations
 to leave tonight for Denver to visit his
 son, Charles Baguley, Jr.

REGAINS APPETITE AND AMBITION BY BUILDING UP BLOOD

**Oregon Woman Acknowledges Her
 Indebtedness to Dr. Williams' Pink Pills for Her Health**

"When a woman has been anemic a
 large part of her life and has finally
 found a remedy that restores her
 strength and happiness, I think it her
 duty to tell others what has helped
 her," says Mrs. Clara Winters, of R.
 D. 2, Box 448, Milwaukie, Oregon.
 "I had suffered from anemia as long
 as can remember," she says, "and
 some time ago I began to feel run-
 down. I lost ambition for my work
 and was tired all the time. For days
 in succession I wouldn't care about
 eating and when I ate a good meal my
 stomach was upset and I suffered
 from headaches and was very nervous
 and easily upset."

"My mother read about Dr. Wil-
 liams' Pink Pills in a newspaper and
 she insisted that I try them. I pro-
 cured a box and a few days after start-
 ing the treatment my appetite im-
 proved and then gradually I regained my
 strength. My color is much better
 now and I am ambitious and active. I
 owe my health to Dr. Williams' Pink
 Pills and have told many of my friends
 about the remedy."

 Third Race.

Sunset Hal, L. E. Martin's chestnut
 gelding was forced to go live heats in
 the 225 pace at the county fair races
 Wednesday afternoon to win first
 money but he was equal to the task
 winning the second, third and last
 heat. This was the biggest event on
 the card for Wednesday. There were
 12 starters in the race which was a
 contest between the Martin horse and
 Barney Stricker, owned by Vanatta
 Stricker. Barney won the two heats
 which Hal was unable to annex. Hal's
 best time was 2:17 1/4, while Barney
 won his heats in 1:14 and 1:12.
 This pacing race was one of three
 events, the other two being races with
 much smaller fields. Van Buren a
 Vanatta horse won the 2:13 pace in
 straight heats, 2:12 3/4 being the best
 time for the event. In the trotting
 race for 2:30 class horses, Glen Wil-
 son's Lady McGregor won in straight
 heats the best time being 2:24.
 A good sized crowd witnessed the
 events, though the threatening weather
 no doubt kept many away.

"WILD WIMIN?" YES, COPS SAY WE HAVE 'EM

The members of the police depart-
 ment are singing the "Wild Wimin"
 song. After Officer Swinehart last
 night arrested Maud Sisto. The Sisto
 woman was putting on a nice family
 row with her husband, Angelo Sisto,
 at their home in Eastern avenue, the
 two having found a oasis in the
 desert.
 When Swinehart attempted to arrest
 the woman she kicked him viciously
 and this morning when she was as-
 sessed \$5 and costs and sent to the
 county jail with her husband, it was
 found that she had kept the waistcot-
 ting off the cell in which she was con-
 fined in an attempt to make a get
 away.

FRANK L. JOHNSON MAY GO TO EGYPT BEFORE VISITING INDIA

Frank L. Johnson, former secretary of the Newark Y. M. C. A., who distinguished himself in war service, is now in France. Writing to The Advocate Mr. Johnson says in part:

"Under separate cover I am sending a number of photographs taken at the great inter-allied games held near Paris in June. The stadium was built by the Y. M. C. A. The whole project was started by the Y. but the co-operation of the army made it possible to put the thing across. May I ask that you use these pictures as you choose, then turn them over to the Newark Y. M. C. A., asking Mr. Lender to put them where the boys can see them and keep them for me. (The pictures Mr. Johnson refers to have not as yet arrived.)"

"Mrs. Johnson and I had a fine trip across. The sea was fine. We landed at Le Havre on August 6. We are destined to remain in Paris for a little time now on account of inability to get passage to India. There is some talk of sending me to Egypt or Bohemia soon. In case this plan works out we shall proceed later to India. Mr. Johnson and I are both busy here now working with sailors on leave from our ships at Brest and soldiers in and around Paris. We have five points left in Paris. They are full day and night. There where I am we are putting up 150 or more sailors every night on cots, serve meals, ice cream, etc. We have sight-seeing tours over the city and to Rheims, Chateau Thierry, Soissons and Versailles. At another place where Mr. Johnson works, they have 1500 cots. Our men meet the trains and guide the parties back to the stations."

"We are having very warm weather here now. I have been very uncomfortable all day."

Mr. Johnson's address is: 12 Rue d'Aguesseau, Paris, France.

INDUSTRIAL RECREATION PART OF Y. M. C. A. PLAN

The industrial department of the Y. M. C. A. is planning to form an industrial committee to help plan the work for the fall and winter and act in an advisory capacity to its secretary. A tentative program will include the conduct of a non-hour recreation periods at plants, factory nights at the Y building, football teams, basketball league, shop meetings, English classes for non-English speaking peoples, etc. One class for non-English speaking men is already in progress. Meetings Mondays and Wednesdays at 7:30 at the Y. This is open to any who may apply.

GERMANS JUST LEARN COST OF GREAT WAR

Berlin, Aug. 21.—(By Mail)—Related news of the losses incurred by German families and organizations, military or civilian, as it is verified, is being placed in the newspapers in the form of obituaries.

The Baron von Wangenheim family recalls its dead in a great black-bordered advertisement in which are named 22 members of the family who have fallen for the fatherland, all except two of them officers.

Similarly the family of Baron von Puttkamer, little known in Germany, and not as large a family as the Wangenheims, announces the loss of 19 members, ranging from non-commissioned officers to lieutenant colonel.

Individual regiments, divisions and naval units are daily letting their individual losses be known, and they make a formidable appearance, and attest to the bitter severity of the war.

In this connection it is interesting to note estimates of the ministry of finance about the cost of the war to Germany. It amounts to about \$35,500,000,000, according to the peace-time rate of exchange.

MACHINISTS WILL GET BACK PAY FROM GOVT.

Representatives of the National War Labor board and the ordinance department of the machine shop employees of the Bethlehem plant of the Bethlehem Steel company for the period from August 1, 1918, to March 1, 1919. Approximately 9,000 machine shop workers who have been paid under this award have been laid off since the armistice was signed, and the employees' committee wants to get the name and address of every machine shop employee who was employed during the period stated above, so that a claim can be put in for the wages due, and all cases be properly taken care of. Between two and three million dollars will be paid by the government to settle the claim of these machine shop employees, and all former machine shop employees of the Bethlehem plant have been asked to send their name and address at once to David Williams, care International Association of Machinists, 605 Hamilton street, third floor, Allen-
